EDUCATION

- Lakshmi Narain College of Technology** Bhopal, India
Bachelor of Technology - Mechanical Engineering (CGPA: 8.14/10) 2020 - 2024

SKILLS SUMMARY

- Languages:** JAVA, SQL, HTML, CSS, JavaScript, LaTeX
- Platforms:** Microsoft 365 (Excel, Power BI, PowerPoint, Power Apps), Figma, Balsamiq, Slack, Tableau
- Tools:** Github, WordPress, Aurdino, Canva, AI Platforms (Open AI, Copilot, Bard)
- Courses:** Project Management ([Link](#)), Product Management

EXPERIENCE

- Blaash.io** Bangalore, India
Product Research and Management (Full-time) March 2024 - June 2024
 - Launched end-to-end B2B SaaS solutions for Preconstruction Business users (Palcode.ai) & Low and no-code platform users, identifying trends, competitive gaps, and customer needs. Conducted AI-driven CRM & Business Management App market research, for analysis of 300+ brands to inform the development.
 - Designed product wireframes and led cold email campaigns, achieving a 20% engagement boost. Collaborated cross-functionally with UI/UX and dev teams to deliver 3 new features using Agile and project management practices.
 - Engaged industry leaders across 23+ countries to identify & verify pain points, validate product-market fit, and refine features through A/B testing, while documenting projects and reporting with stakeholders to drive launches.
 - Built automation for real-time market insights, reducing analysis time in handling data-sets by 98% and enabling visual data dashboards to support strategic decision-making and prioritized backlog input.
- Smoky Resources** United States
Management Intern (Full-time, Remote) December 2023 - January 2024
 - Consulted 10+ global clients, optimizing profiles for better career alignment, tracking applications and providing continuous account management support.
 - Handled & managed administrative tasks, data-entry and reporting, cross-time zone collaboration, including US operations, and enhancing team work efficiency by 15%.
- StockGro** Bangalore, India
Marketing Intern (Contractual) August 2023 - October 2023
 - Improved platform engagement, translating into stronger community traction and boosting audience retention, introducing practical skills exposure.
 - Promoted financial literacy outcomes through real-time market events, hosted events and market sessions with StockGro, gaining 500+ signups in 2 days and 90% positive feedback.
- AICTE IDEA Lab** Bhopal, India
Sustainable Product Development (Part-time, Contractual) January 2023 - April 2023
 - Researched and developed sustainable products, leveraging emerging technologies for real-world solutions with applications in STEM fundamentals to develop prototypes, foster critical thinking and problem-solving under central-government schemes.
 - Applied CAD & Design knowledge (SolidWorks, KiCAD, EAGLE, RDWorks) to instruct technical workshops for learners, gaining hands-on experience, logic building, and fostering community learning in an unsupervised setting with application in engineering and ergonomics after university hours.

PROJECTS

- Product Management & Market Research Analysis:**
 - Palcode AI:** AI automated Preconstruction Business users web application. ([Palcode.ai](#))
 - Launching GTM for Netflix India (Case Study):** Micro-Subscription & Acquisition Strategy. [Link](#)
