

AYUSH GALPHAT

Bengaluru, India +91 9098698413

ayushgalphat@gmail.com ◇ linkedin.com/in/ayushgalphat9513 ◇ knowayushgalphat.vercel.app

Product focused with 0 to 1 experience across two B2B SaaS products and a growth org. Owns discovery through GTM (go-to-market) launch: user research, journey mapping, requirement definition, and shipping with engineering, then proving impact with cohort, funnel, and A/B analysis.

EXPERIENCE

Growth Marketing Strategist, Wiingy Inc.

November 2025 - Present

Bengaluru, India

- Reactivated two years of dormant leads at **28% conversion** by owning a reactivation program 0 to 1, defining requirements and shipping automated outreach with LLM APIs, cutting manual effort 90% at **11x return on tooling cost**.
- Accelerated **ARPU 182%** (\$171 to \$480+) in seven months by designing cohort segmentation and per segment upsell positioning, lifting upgrade revenue per customer 7x.
- Lifted lead-to-customer conversion **36%** across organic and paid channels by mapping user journeys to root-cause onboarding bottlenecks, shipping **10+ product improvements and 2 feature changes** with engineering, operations, and pre-sales.
- Spearheaded Thumbtack as a new paid acquisition channel **0 to 1**, program-managing cohort-level spend experiments across \$70K media to lift **RoAS from 1.01 to 1.80** while cutting spend 18% month over month.
- Owned pricing experimentation and funnel reporting, **running 2-month A/B tests** and automating CPL, CAC, RoAS, and cohort-conversion dashboards (Excel, Google Sheets) that reconciled Jira and CRM data into weekly decision inputs for leadership.
- Authored SOPs and trained a 4-person operations team to run lead-to-customer execution and reporting independently, **lifting team efficiency 15%**.

Product Research & Management, Blaash.io

March 2024 - June 2024

Bengaluru, India

- Led the **0 to 1 GTM launch** of Palcode AI, a preconstruction estimating and bid-automation platform for general contractors, translating user interviews and competitive gaps into **3 core features shipped in 4 months** with UI/UX and engineering.
- Validated product-market fit through **40+ structured user interviews** on the founding team across 2 B2B SaaS products (a no/low-code AI CRM for citizen developers and Palcode AI), converting pain points & behavioral signals into roadmap priorities.
- Designed the A/B testing framework and early-access program for Palcode AI, recruiting industry practitioners and competitor product leads to validate features against real workflows before rollout.
- Automated market-intelligence reporting (Excel, Power BI), cutting dataset analysis time **98%** and feeding backlog prioritization across both product lines.
- Built a 100+ practitioner network across 25 countries in the CRM and automation space through targeted outreach, **lifting engagement 20%** and seeding GTM early-access recruiting and user research.

Management Intern, Smoky Resources

December 2023 - January 2024

United States of America (Remote)

- Consulted 10+ global clients on profile optimization and pipeline tracking, documenting workflows across multi-timezone teams to cut reporting cycle time 15%.

PROJECTS ([WEBSITE LINK](#))

Netflix India Micro-Subscription (case study) Designed a tiered pricing model and KPI framework for India's 601M-user market, **projecting 23-46% revenue uplift** per tier with cannibalization held under 5%. ([Link](#))

Swiggy Instamart (case study) Benchmarked a **Rs.400 AOV against 6 competitors** and RICE-scored 5 order-value levers, defining an AOV North Star and 5 supporting KPIs in a \$9.9B FY29 market. ([Link](#))

Cue AI (in progress) Building an **AI content platform to help creators** and marketers plan, optimize, and publish across social channels. ([Link](#))

SKILLS

Data & Analytics: SQL, PostgreSQL, cohort & segmentation analysis, funnel analysis, hypothesis testing, anomaly & trend detection, Advanced Excel (Pivot Tables, Lookups), Google Sheets

Product: Roadmap prioritization (RICE), PRDs, A/B testing & experimentation, user research & interviews, journey mapping, competitive analysis, GTM strategy, wireframing, North Star & KPI definition

Reporting & BI: Power BI, Tableau, dashboarding, KPI & unit-economics reporting (ARPU, CAC, CPL, RoAS)

Tools & AI: Jira, Figma, LLM apps, prompt engineering, AI workflow automation, Python, Google Apps Script, API integration, Git/GitHub

Relevant Coursework: Project Management ([Link](#)), Product Management

EDUCATION

Bachelor of Technology, Mechanical Engineering, Lakshmi Narain College of Technology

2020 - 2024 / CGPA 8.14/10
