EXPERIENCE

Growth Marketing Strategist, Wiingy Inc.

November 2025 - Present

Bengaluru, India

- Accelerated ARPU 182% (\$171 to \$480+) in seven months by designing cohort segmentation and upsell campaigns with tailored positioning and messaging per segment, lifting upgrade revenue per customer 7x.
- Program-managed Thumbtack as a new paid-acquisition channel from 0 to 1, running cohort-level spend experiments across \$70K media to lift RoAS from 1.01 to 1.80 while cutting spend 18% month-over-month.
- Lifted down-funnel conversion 36% across organic and paid channels (Google Ads, Thumbtack, Bark) by root-causing funnel leakage and automating lead-to-customer handoffs.
- Shipped 10+ product improvements and 2 feature changes by mapping user journeys and partnering cross-functionally with engineering, operations, and pre-sales to fix onboarding bottlenecks.
- Built automated CPL, CAC, RoAS, and cohort-conversion dashboards (Google Sheets), delivering weekly KPI insights to leadership and running 2-month pricing A/B tests across all channels.
- Authored conversion-metric SOPs and trained a 4 person operations team to run lead-to-customer execution independently, lifting overall team efficiency 15% and removing the need for ongoing marketing oversight.

Product Research & Management, Blaash.io

March 2024 - June 2024

Bengaluru, India

- Launched a B2B SaaS product from 0 to 1 on the founding team, translating customer pain points and competitive gaps into 3 core features shipped with UI/UX design and engineering in 4 months.
- Planned and executed the product's go-to-market strategy, defining target segments, positioning, and messaging, and running cold-email campaigns across 25 countries that lifted engagement 20% and built relationships with 100+ industry leaders in CRM and automation.
- Validated product-market fit through 40+ structured user interviews and an A/B-tested early-access program, recruiting industry practitioners and competitor product leads as first testers and converting findings into roadmap priorities.
- Built automated market-intelligence dashboards (Excel, Power BI), cutting dataset analysis time 98% and feeding backlog prioritization across 2 product lines.
